

HOTCHKISS AIR SUPPLY

Heating, Ventilating & Air Movement Equipment

H a s f l e x C l a m p i n g P r o d u c t s

Lightning Band

Manufactured from zinc plated mild steel supplied in a dispensing box containing 30 metres of banding. Two types of housing are available, standard and captive, both types are supplied in boxes of 100.

Uses: For all flexible ducting other than Semi-Rigid

Stainless Steel Clamping Band

Manufactured from stainless steel into 9mm wide banding with raised edges to avoid damage to flexible ducting. Supplied in a plastic dispensing cartridge containing 30 metres of coil. One piece quick release locks are supplied in boxes of 50.

Uses: For all flexible ducting other than Semi-Rigid

Nylon Clamping

An economical alternative to metal clamps for the installation of most types of HASFLEX range of flexible ducting. Quick and easy to install (and remove), having a maximum tensile strength of 79kg with a temperature range of -55°C to +100°C. Suitable for diameters up to and including 315mm. For larger diameters simply connect two clamps together!

Additionally, there is a tensioning tool which tightens and trims the nylon clamps in situ.

Uses: Not recommended for Semi-Rigid but particularly effective with Acoustic & Insulated Flexible

Quick Release Clamps

Individually assembled labour saving clips are manufactured from 9mm wide stainless steel band continuously threaded for use on most diameters. Each clip is fitted with flip up tightening head for rapid fitting. Size range 60mm to 540mm diameter. Supplied individually.

Uses: For all flexible ducting other than Semi-Rigid

HASFLEX Worm Drive Wire Clips

Specifically designed for use with Hasflex FLAL, FLGS and FLSS Semi-Rigid tube. Manufactured in a wire format to locate into corrugations thus creating a positive grip and seal.

Uses: For all Semi-Rigid ducting
