

HOTCHKISS AIR SUPPLY

Heating, Ventilating & Air Movement Equipment

T u r n i n g V a n e & M o u n t i n g T r a c k

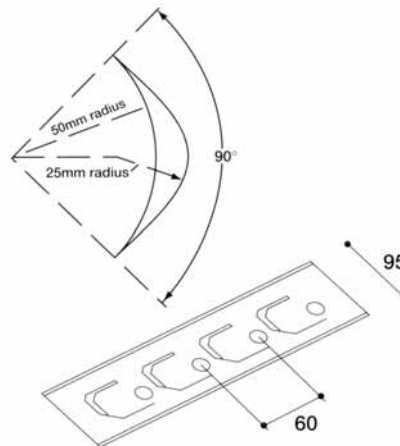

Description

The HAS range of turning vane and track provides an economical and highly efficient form of airturn. Manufactured from the highest quality corrosion resistant materials, it offers an accurate and smooth section ensuring minimum friction loss and noise generation. Suitable for low, medium and high velocity applications it conforms to the latest HVCA DW144 specification.

Construction

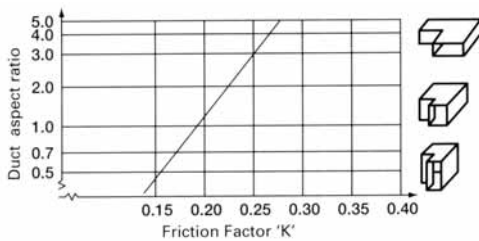

The HAS aerofoil turning vane is manufactured from 0.4mm corrosion resistant galvanised steel and is of double skin construction.

The HAS mounting track is manufactured from 0.7mm corrosion resistant galvanised steel and comes with pre-punched mounting tongues spaced at a 60mm pitch.

Features

- ¥ Designed to provide economical air turns
- ¥ Smooth profile ensuring minimised friction loss and noise generation
- ¥ High quality corrosion resistant materials
- ¥ Complies with the HVCA DW144 specification
- ¥ Suitable for low, medium and high pressure applications
